1.0 Purpose of the Asset Management Plan

Uckfield Town Council first drafted an Asset Management Plan in 2001 in line with guidance from the Department of the Environment and Transport, and the Regions. It provided details of the operational assets at that time in terms of land and buildings, vehicles and non-operational assets which were leased out to other parties. However, this document did not closely align with the Town Council's strategic documents at that time nor was it referred to on a regular basis.

The Town Council produced a new Asset Management Plan in 2017. The Town Council recognised the important role that property plays in supporting the Town Council to deliver its strategic and annual plans and wants to provide a clear and accessible statement of its intentions for the portfolio both in the immediate year and over the next five years. The Asset Management Plan has been written in accordance with the Royal Institution of Chartered Surveyors Public Sector Property Asset Management Guidelines and further reflects good practice as recognised by Chartered Institute of Public Finance and Accountancy. It provides a clear, approved strategy for the management of the Town Council's property assets.

2.0 Function of the Asset Management Plan

1. To manage the asset portfolio in support of the Town Council's Annual Plan and Strategic Plan;
2. To define the property portfolio, its value, condition and suitability to deliver the Town Council's priorities;
3. To outline the policy for holding, acquiring and disposing of the property assets;
4. To identify opportunities to rationalise, invest or develop the property portfolio to support the Town Council's corporate priorities and the need for financial return;
5. To raise awareness of property as a valuable and workable asset in support of the Town Council's corporate priorities;
6. To manage the asset portfolio to deliver the needs of the Town Council's services;
7. To maximise asset value and asset use through strategic maintenance and operational planning;

The property assets are managed both individually and as an entire portfolio to maximise operational value, income generation and capital value at all times whilst complying with the requirements for commercial sensitivity, economic viability, best value and probity.

The Asset Management Plan (AMP) identifies the anticipated maintenance budget requirement over a five to ten-year period for the building assets. This is used to assist in financial planning and to indicate ongoing costs related to the individual assets to inform strategic decisions on their future.

The AMP is subject to consultation processes which are summarised at Appendix 1.

The management of the property assets is subject to external and internal influences which are summarised at Appendix 2.

The AMP will support the Council in the delivery of its corporate priorities through ensuring that the portfolio is dynamically managed with focus directed towards priority areas, maintenance costs kept to a sustainable level and strategic decisions based on delivering services and optimising financial return.

3.0 The Town Council's Asset Portfolio

The Portfolio comprises 66 land and property assets. These assets comprise buildings, land, recreation grounds and playing fields, woodland, cemeteries, allotments, playgrounds and a signal box. In addition, the Town Council holds a number of wayleaves, licences and leases and street furniture.

Asset Type	Number of Assets
Allotment	7
Building	13
Cemetery	2
Land	17
Nature Reserve	3
Path	1
Playground	8
Pond	2
Recreation Ground	7
Woodland	6
Total	66

The assets are summarised in the Asset Register at Appendix 3 in accordance with these categories.

A full market valuation of the Town Council's assets was undertaken in 2024 (dated 31 March 2024) (in terms of market valuation). This exercise is typically undertaken every five years and will next be carried out in April 2029. The values given are made for capital accounting purposes in accordance with the Royal Institution of Chartered Surveyors Valuation Standards and with the International Public Sector Accounting Standards.

The basis of the value used for each property depended upon the type of asset held and whether it is used by the Council or held for investment purposes. The uses were categorised into:

Operational (specialised) – purpose built properties used by the Town Council

Operational (non-specialised) – used by Council but with more general use

Non-Operational – usually held for investment purposes

Heritage – historic building held for its cultural, educational and environmental value

Please note that the most recent market valuation continued to classify Bridge Cottage as a heritage asset. This changed in the March 2019 asset valuation, as before that time, it was categorised as a non-operational asset held for investment purposes.

Properties were valued in reference to the following:

- **Cost** – the amount of cash or cash equivalents paid to acquire, construct or renovate the property (for Heritage assets only).
- **Depreciated Replacement Cost (DRC)** which is defined by the RICS as:
‘the current cost of replacing an asset with its modern equivalent asset less deductions for physical deterioration and all relevant forms of obsolescence and optimisation.’
- **Fair Value** which is defined by the RICS as:
‘the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date’
- **Market Value** which is defined by the RICS as:
“the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.”

In March 2014, the asset portfolio was valued at £4,513,250 with an annual rental income of £52,658 (*which includes all income from building rents and other rents and wayleaves at Nov 2018*) and an annual maintenance budget which has recently been in the region of £70-£100k to work through some major works required.

In March 2019, the asset portfolio was valued at £5,823,050 with an annual rental income of £55,271 (*which includes all income from lease/licence agreement rental payments and wayleaves only at December 2019*) and an annual maintenance budget which has recently been in the region of £70-80K per annum.

In March 2024, the asset portfolio was valued at £5,314,050. On average the annual rental income is approximately £42k for lease rental income (with three leases due to be reviewed shortly, and one property vacant) so this is likely to increase further once all premises are occupied and lease agreements up to date. The Town Council sees an average annual income of £100-110k for the hire of facilities at the Civic Centre, and £12-15k at Foresters Hall. The Town Council also receives nominal sums from time to time from wayleave agreements where utility companies require access onto Town Council land. The annual building maintenance budget for 2024-25 was set at £76k, and a further £55k is being proposed for 2025/26, in addition to the use of earmarked reserves for specific identified projects.

2023 and 2024 saw the Town Council undertake more substantial works around compliance. We are currently reviewing the condition of vacant properties or properties soon to be vacant, and seeing where we can increase income from underutilised facilities.

The works and servicing requirement for the buildings have been prioritised to ensure that all legislative compliance needs are met followed by maintaining a ‘fitness for purpose’ to deliver the operational need and to maintain the asset value.

In 2014, a Building Maintenance Programme was commissioned which is now moving into its eleventh year. The plan originally set out a ten-year programme of works needed on the building assets where the Town Council based on a stock condition survey. It was acknowledged that a lot of the works were external, and further substantial works were

required to ensure the buildings were safe, compliant, user friendly and efficient. A new stock condition survey was carried out in 2019, which identified future works to be carried out over the next five years. It is recommended that this be planned for 2025 to review the external structure and maintenance of the buildings. The Town Council has upgraded the plumbing and heating systems in Foresters Hall, Foresters Chapel and Victoria Pavilion during 2024.

The Town Council reviews the building maintenance programme on an annual basis in order to prioritise works in accordance with the condition of all buildings. The Town Council has also recently reviewed works, to see what works can be carried out by local contractors and smaller firms in contrast to larger scale or specialist works.

Up to date insurance rebuild valuations were undertaken of all Town Council buildings in 2019, 2020 and 2023 to inform the Town Council's building insurance policy. It is recommended that a review be undertaken in either 2025 or 2026. As a result, funds have been set aside in the proposed budget for 2025/26.

4.0 Asset Management Strategy 2025-30

The Asset Management Strategy defines the framework for the property portfolio management over the next three to five years. The Town Council will:

- Manage the assets to support the objectives of the Strategic Plan;
- Manage the assets in accordance with relevant legislation;
- Undertake a review of existing land use;
- Consider the acquisition and disposal of assets to support the strategic priorities;
- Undertake a full review of leases, licences and other land interests to ensure that they are up to date and that all occupations are properly regularised;
- Review statutory compliance of the Town Council's buildings to ensure that proper procedures are in place to comply with Health and Safety requirements;
- Manage our assets and property portfolio to ensure we reach carbon neutrality;
- Produce and update a Maintenance Strategy to support the Asset Management Strategy which, when combined will jointly assist in the delivery of the corporate priorities. The maintenance plan will identify the annual actions that will need to be carried out from year to year to achieve the Maintenance Strategy;
- Identify opportunities to work with partners to support wider public sector real estate strategies.

5.0 Asset Management Strategy Delivery 2025-30

The Asset Management Plan underpins the five-year property asset strategy and also breaks this down into stages to be achieved in each financial year of the Asset Management Plan. Over the next financial year, the Town Council will:

- Review and confirm the Maintenance Strategy for the next 5 years;
- Deliver any remaining actions from annual fire risk assessments and five-yearly EICR inspections;
- Commence the review of the leases, licences and land titles;
- Deliver initiatives outlined within the Town Council's Strategic and Annual Plans:
 - finalise the upgrading of our facilities to ensure compliance (fire safety and electricity) in the Civic Centre, Foresters Hall, and Victoria Pavilion);
 - refurbish the Signal Box and bring up to standard to be able to re-let;
 - improve the Cemetery Chapels to prepare for re-let;
 - consider the future of Osborn Hall, and explore options for a new community facility
- Aim to decarbonise our buildings and landholdings, and ensure we use them in an environmentally sustainable way
- Explore options for creating further recreational facilities;
- Manage consultants and contractors to deliver the asset management objectives;
- Report six monthly on the delivery of the asset management plan objectives.

6.0 Process for Adoption and Operation

The Town Clerk will present the Asset Management Plan to the Town Council for approval and adoption.

If approved, the Asset Management Plan will form the strategy under which the property portfolio is managed by the Town Clerk on behalf of the Town Council. The Town Clerk will agree targets for the delivery of the strategy over the forthcoming financial year and will report at the end of the financial year as part of the asset management plan annual review.

7.0 Appendices:

Appendix 1: Consultation and protocols

Appendix 2: External Influences

Appendix 3: Asset Register

Appendix 1 - Consultation and Protocols

The Asset Management Plan will be presented to the Town Council for consideration with a recommendation that it be accepted and formalised into the Final Asset Management Plan subject to any amendments that the Town Council wish to see included into the final document.

The AMP will then be amended to reflect the Town Council's decision and the final document will be published and will confirm the strategy upon which the property assets will be managed for the period of the Asset Management Plan.

The AMP will be presented to the Town Council each year in draft alongside the draft budget and draft priorities to summarise progress over the outgoing financial year and to identify targets for the forthcoming financial year. The Town Council will be invited to review progress and approve the following year's targets.

The Town Clerk will report to the Town Council on the progress of the Asset Management Plan on a six-monthly basis via Full Council and the delivery of the objectives for the specific financial year.

Appendix 2 – External Influences

Legislation

The property portfolio will be managed and maintained in accordance with relevant legislation to ensure compliance with Health and Safety, Landlord and Tenant, Planning and environmental legislation.

Best Practice

In addition, the portfolio will be managed in accordance with best practice following relevant industry guidelines and guidelines and policies from Central Government.

New leases will be let in accordance with RICS best practice; Asset maintenance will follow the RICS best practice on maintenance management as outlined in Strategic Facilities Management Guidance Note.

Where appropriate the Town Council will follow the Government's Transparency Code for recording asset database details.

Property Market

Recommendations for the strategic and operational management and maintenance of the Town Council's property assets will be made having regard to the nature of the property market at the relevant time.
